List of Authors of papers published in Volume I, Transactions of American Society for Steel Treating, October, 1920 to October, 1921

<b>A</b>			
Aitchison, Leslie	734	Loudenbeck, H. C.	398
Anderson, Arvid	312	Lyman, W. H.	249
Andrews, J. D.	229	Lynch, T. D.	62
Armitage, Arthur N.	651		
<b>B</b>		<b>M</b>	
Baily, T. F.	401	MacDonald, H. P.	198
Barker, T. E.	419	MacFarland, A. E.	306
Bellis, A. E.	441	Marble, W. H.	170
Bensel, A.	598	Medwedeff, Marshall	245
Bible, Guy P.	158	Merten, Wm. J.	270
Brophy, G. R.	330	Miller, John	321
Brown, Charles M.	666	Moister, F. L.	49
Brown, J. A.	575	Moore, H. F.	327
Burgess, Dr. George K.	370	Moulton, Seth A.	249
<b>C</b>		Movius, H. Gretchen	758
Carter, H. G.	56	McCloud, J. L.	116
Collins, E. F.	217	McFarland, G. S.	297
Conarroe, Alvin N.	746	McKinney, Paul E.	738
Cutter, J. D.	188	McKnight, Charles	288
<b>D</b>			
Davis, E. F.	33, 128	<b>P</b>	
<b>E</b>		Pierce, Earl W.	448
Ehlers, W. A.	104	Porteous, George	238
<b>G</b>			
Gilman, R. L.	445	<b>R</b>	
Giltinan, D. M.	716	Redding, A. M.	43
Green, Arthur W. F.	419	Richards, Dr. Joseph W.	91, 359
<b>H</b>		Ring, Charles N.	342
Hall, H. G.	505	Rettew, E. W.	247
Harder, Oscar E.	111		
Hartman, M. L.	601	<b>S</b>	
Haux, C. A.	638	Sargent, Dr. G. W.	589
Hemstreet, Harry E.	209	Sauveur, Dr. Albert	87
Hillman, Victor E.	161	Schmid, M. H.	500
Hook, Ira T.	140	Scott, Howard	511, 758
Howard, James E.	673	Selleck, Theodore G.	383, 655
<b>J</b>		Shimer, W. R.	423
Johnson, Dr. Charles M.	554	Spillane, Richard	367
<b>K</b>		Stenger, B. H.	617
Kerr, R. B.	309	Stenger, E. P.	617
Knerr, H. C.	455		
Knowlton, H. B.	689	<b>T</b>	
<b>L</b>		Taylor, Robert M.	67
Lanning, L. A.	247	Thum, E. E.	640
Larkin, F. V.	153	Thorne, J. L.	727
Leeds, Morris E.	365	Traphagen, Henry	527
Leiter, S. B.	330	Trout, George H.	51
Lellep, O.	346		
Lottes, W. G.	181	<b>V</b>	
		Vauclain, Samuel M.	96
		<b>W</b>	
		Wadlund, Arthur P. R.	682
		Ward, W. R.	325
		White, Col. Albert E.	356, 481
		Wiegand, Henry H.	338
		Wilson, A. J.	436

List of subjects presented in papers published in Volume I, Transactions of American Society for Steel Treating, October, 1920 to October, 1921

**A**

Abroad, Impressions from.....	96
Acid Resisting Steel, Properties and Microstructure of Heat Treated, Nonmagnetic, Flame, Acids and Rust Resisting Steel.....	554
Address of President White at Philadelphia Convention.....	356
Alloy Annealing Boxes in England, Making of.....	587
Alloy Steel Output for 1920.....	548
Alloy Steel, Its Rise and Secrets .....	481
Alloy Steels, Carburizing, Hardening and Tempering High Carbon Alloy Steels in 130 Minutes .....	445
Alloy Steels, Extending the Use of.....	473
Alloy Steels, Value of Molybdenum.....	589
Discussion .....	596
Alloys, A Suggested Method of Determining the Comparative Efficiency of Certain Combinations of Alloys in Steel .....	188
Discussion .....	190
Alloys, High Temperature Resisting Alloys for Carbonizing.....	598
Ancient and Honorable Craft of Steel Treating .....	91
Annealing and Heat Treating Miscellaneous Steel Castings.....	342
Application of Furnace Door Screens.....	338
Automobile Steels, The Fatigue Breakdown in.....	321
Axles, Heat Treatment of Truck Axles.....	209

**B**

Barker, T. E., Resignation as First Vice President.....	419
Bessemer Process for Making Steel.....	682
Blast Furnaces and the Making of Pig Iron.....	312

**C**

Campbell, Prof. E. D., Elected to Honorary Membership.....	474
Carbon Steels; Thermal and Physical Changes Accompanying the Heating of Hardened Carbon Steels .....	758
Carbonizing, A Research in .....	297
Discussion .....	303
Carbonizing and Carbonizing Materials.....	689
Carbonizing, High Temperature Resisting Alloys for.....	598
Carbonizing Process, First Principles of.....	383
Carbonizing Process, Relation of Temperature to Quality of Case and Core.....	655
Carborundum Refractories in Heat Treating Furnaces.....	601
Carburizing, Hardening and Tempering High Carbon Alloy Steels in 130 Minutes .....	445
Carburizing Temperatures Best Suited for Steels of Various Carbon Contents..	638
Case Carbonizing, A Research in .....	297
Discussion .....	303
Case Hardening of Steel, New Method for.....	270
Case Hardening Steel, True Action of Cyanide in .....	330
Discussion .....	334
Cast Steels, Thermal and Physical Treatment of.....	746
Centrifugally Cast Steel, Tests of.....	370
Chrome-Molybdenum Steel, Heat Treated Steel Castings of.....	588
Coal-Heated Furnaces; Relative Economy of Oil, Gas, Coal and Electric Heated Furnaces .....	249, 401
Concerning Pyrometers .....	73

of	Constitution, Proposed Changes in .....	551
96	Convention Banquet at Philadelphia.....	85
554	Convention and Exhibition of 1921 at Indianapolis.....	
356	287, 418, 458, 475-479, 548-551, 614-616, 701-715	
587	Convention Opening at Philadelphia.....	2
548	Crucible Tool Steel Versus High Carbon Open-Hearth Steel in the Manufacture	
481	of Miscellaneous Tools .....	238
596	Cyanide; True Action of Cyanide in Case Hardening Steel .....	330
	Discussion .....	334
	<b>D</b>	
445	Dendritic Steel .....	56
473	Development of Measuring Instruments for Metallurgical Purposes.....	365
589	Die Blocks; Hardening of Hammer Blocks .....	309
596	Discussion of Molybdenum Steels.....	288
	Double Preheating High Speed Tools for Hardening, A Note on.....	306
	<b>E</b>	
188	Economy; Relative Economy of Oil, Gas, Coal and Electric-Heated Furnaces	
190	249, 401	
598	Educational Co-operation .....	452
91	Effect of Heat Treatment on the Fatigue Strength of Steel—Discussion.....	617
342	Effect of Phosphorus and Sulphur in Steel.....	247
338	Efficiency in Alloys; A Suggested Method for Determining the Comparative	
321	Efficiency of Certain Combinations of Alloys in Steel.....	188
209	Efficiency of Various Quenching Mediums and Their Application—Discussion	161
419	Electric Furnaces, Relative Thermal Economy of.....	217
682	Electric-Heated Furnaces; Relative Economy of Oil, Gas, Coal and Electric	
312	Heated Furnaces .....	249, 401
	Electrical Heat Treatment of Steel .....	198
	Discussion .....	207
474	Essentials of Modern Pyrometer Equipment .....	505
	Extending the Use of Alloy Steels .....	473
	<b>F</b>	
758	Factors Governing the Production of Heat Treated Products.....	575
297	Factors Limiting the Use of Materials .....	140
303	Fatigue Breakdown in Automobile Steels.....	321
689	Fatigue Failures and Heat Treatment .....	423
598	Fatigue of Metals Under Repeated Stress, Progressive Failure or.....	327
383	Fatigue Strength of Steel, Effect of Heat Treatment.....	617
655	Discussion .....	635
601	Fatigue Study of Steel is Important .....	614
445	First Principles of the Carbonizing Process; A Consideration of Fundamental	
638	Facts and Factors .....	383
297	Flame, Acids and Rust Resisting Steel, Properties, Microstructure and Heat	
303	Treatment of .....	554
270	Forgings, Observations Made in the Heat Treatment of Ordnance Forgings..	738
330	Forge Shop Man; Steel and the Forge Shop Man.....	49
334	Foreign Trade, World Conditions and the Development of.....	367
746	Fuels; Their Application to Metal Treating.....	104
370	Fuel-Fired Furnaces; Relative Thermal Economy of Electric and Fuel-Fired	
588	Furnaces .....	217
	Fuel-Fired Furnaces; Relative Economy of Electric, Oil, Gas and Coal-Fired	
	Furnaces .....	249, 401
9, 401	Fuel-Fired Furnaces, Scaling or Oxidation and Reduction of Metals in.....	346
73	Function of Insulation and Its Application to Heat Treating Furnaces.....	33

Furnace Door Screens, Application of.....	338
Furnace Walls, Heat Flow Through.....	128
Furnaces; Blast Furnaces and the Making of Pig Iron.....	312
Furnaces; Carborundum Refractories in Heat Treating Furnaces.....	601
Furnaces; The Function of Insulation and Its Application to Heat Treating Furnaces .....	33
Furnaces; Relative Economy of Oil, Gas, Coal and Electric-Heated Furnaces .....	249, 401
Furnaces; Relative Thermal Economy of Electric and Fuel-Fired Furnaces....	217

## G

Gas; Producer Gas for Heat Treating.....	51
Gas-Heated Furnaces; Relative Economy of Oil, Gas, Coal and Electric Heated Furnaces .....	249, 401

## H

Hammer Die Blocks, Hardening of.....	309
Hardening; Carburizing, Hardening and Tempering High Carbon Alloy Steel in 130 Minutes .....	445
Hardening Hammer Die Blocks.....	309
Hardening Tractor Worms, Time, Temperature and Heating Media Functions in Discussion .....	116
Heat Flow Through Furnace Walls.....	122
Heat Treating and Annealing Miscellaneous Steel Castings.....	128
Heat Treating Furnaces, Carborundum Refractories in.....	342
Heat Treating Furnaces, the Function of Insulation and Its Application to....	601
Heat Treating, Producer Gas for.....	33
Heat Treating, Producer Gas for. Discussion .....	51
Heat Treated, Nonmagnetic, Flame, Acids and Rust Resisting Steels, Properties of .....	179
Heat Treated Steel Castings of Chrome Molybdenum Steel.....	554
Heat Treatment and Fatigue Failures.....	588
Heat Treatment, Effect on Fatigue Strength of Steel.....	423
Heat Treatment, Effect on Fatigue Strength of Steel. Discussion .....	617
Heat Treatment; Electrical Heat Treatment of Steel.....	635
Heat Treatment; Electrical Heat Treatment of Steel. Discussion .....	198
Heat Treatment of High Speed Steel.....	207
Heat Treatment of Ordnance Forgings, Observations Made in.....	727
Heat Treatment of Stainless Steel, Properties and Application .....	738
Heat Treatment of Steel, Necessary Precautions to Obtain Uniformity in the	170
Heat Treatment of Steel, The Application of Pyrometers to.....	398
Heat Treatment of Steel, Volume Changes in.....	43
Heat Treatment of Steel, Volume Changes in. ....	734
Heat Treatment of Truck Axles.....	209
Heat Treatment; Relation of Steel Salesman to the Development of Heat-Treatment of Steel .....	158
Heated Products, Factors Governing the Production of.....	575
Heated Products, Factors Governing the Production of. Discussion .....	586
Heating and Quenching High Speed Steel.....	441
Heating of Hardened Steels, Thermal and Physical Changes Accompanying the Heating Media, Time, Temperature Functions in Hardening Tractor Worms	758
Heavy Duty Helical Springs; A Process for the Manufacture of.....	116
Heavy Duty Helical Springs; A Process for the Manufacture of. Discussion .....	62
Helical Springs; A Process for the Manufacture of Helical Springs for Heavy Duty .....	126
Helical Springs; A Process for the Manufacture of Helical Springs for Heavy Duty. Discussion .....	62

338	High Carbon Alloy Steels, Carburizing, Hardening and Tempering of in 130	
28	Minutes .....	445
312	High Carbon Open-Hearth Steel Versus Crucible Tool Steel in the Manufac-	
601	ture of Miscellaneous Tools .....	238
33	High Speed Steel, Heat Treatment of.....	727
	Discussion .....	732
401	High Speed Steel, Heating and Quenching of.....	441
217	High Speed Steel, High Temperature Treatment of .....	511
	High Speed Steel, Making the Most of .....	436
51	High Speed Steel; Selection for Tools.....	527
	High Speed Steels, Metallurgy of .....	716
401	High Speed Tools; A Note on Double Preheating of High Speed Tools for	
	Hardening .....	306
	Discussion .....	308
309	High Temperature Resisting Alloys for Carbonizing.....	598
	High Temperature Treatment of High Speed Steel in Relation to Secondary	
309	Hardening and Red Hardness .....	511
445	Honorary Members; Election of Prof. Albert Sauveur and Prof. E. D. Campbell	
		417, 474
309	<b>I</b>	
116	Impressions from Abroad .....	96
122	Industry; When Will It Resume? .....	547
128	Inspection; Role of the Metallurgical Laboratory in Relation to Inspection...245,	448
342	Instruments; Development of Measuring Instruments for Metallurgical Use..	365
601	Insulation, The Function of.....	128
33	Insulation; The Function of Insulation and Its Application to Heat Treating	
51	Furnaces .....	33
179	<b>L</b>	
554	Lessons Learned in the Manufacture of Munitions and Ordnance That Can	
588	Be Applied to Peace Time Pursuit of Industry.....	153
423	List of Members.....	Vol. I, No. 5, Pages 1 to 91
617	<b>M</b>	
635	Machine Parts; Steel for.....	67
198	Making Alloy Annealing Boxes in England.....	587
207	Making the Most of High Speed Steel.....	436
727	Manufacture of Helical Springs for Heavy Duty, A Process for.....	62
738	Manufacture of Munitions and Ordnance; Lessons Learned That Can Be	
170	Applied to the Peace Time Pursuit of Industry.....	153
398	Manufacture of Steel From the Raw Material to the Finished Product.....	423
43	Materials, Factors Limiting the Use of.....	140
734	Measuring Instruments for Metallurgical Use; Development of.....	365
209	Membership Campaign .....	455
158	Metal Treating; Fuels and Their Application to.....	104
575	Metallurgical Laboratory—Its Role in Relation to Inspection Department..245,	448
586	Metallurgical Progress or Progress in Steel Treating.....	359
441	Discussion .....	364
758	Metallurgy of High Speed Steel.....	716
116	Metallurgy; What's New in Metallurgy?.....	640
62	Metals; Progressive Failure or Fatigue of Metals Under Repeated Stress.....	327
126	Metals; Scaling or Oxidation and Reduction of Metals in Fuel-Fired Furnaces	346
	Metcalf Test Bar; Microconstituents in One Section of a .....	111
	Discussion .....	115
62	Microconstituents in One Section of a Metcalf Test Bar.....	111
126	Microstructure of Heat Treated Nonmagnetic, Flame, Acids and Rust Resisting	
	Steel .....	554

Molybdenum Alloy Steels; The Value of.....	589
Molybdenum Steel and Its Application.....	500
Molybdenum Steels; A Discussion of .....	288
Munitions; Lessons Learned in the Manufacture of Munitions and Ordnance, That Can Be Applied to Peace Time Pursuits of Industry.....	153
<b>N</b>	
Necessary Precautions to Obtain Uniformity in the Heat Treatment of Steel	398
New Method of Case Hardening Steel.....	270
Nonmagnetic Steel; Properties and Microstructure of Heat Treated Nonmag- netic, Flame, Acids and Rust Resisting Steel.....	554
Note on Double Preheating High Speed Tools for Hardening.....	306
<b>O</b>	
Observations Made in the Heat Treatment of Ordnance Forgings.....	738
Oil-Heated Furnaces; Relative Economy of Oil, Gas, Coal and Electric-Heated Furnaces .....	249, 401
Open-Hearth Steel Versus Crucible Tool Steel in the Manufacture of Miscel- laneous Tools .....	238
Ordnance Forgings; Observations Made in the Heat Treatment of.....	738
Ordnance; Lessons Learned in the Manufacture of Munitions and Ordnance That Can Be Applied to Peace Time Pursuit of Industry.....	153
Oxidation; Scaling or Oxidation and Reduction of Metals in Fuel-Fired Furnaces .....	346
<b>P</b>	
Phosphorus and Sulphur; Effect of, on Steel.....	247
Physical and Thermal Changes Accompanying the Heating of Hardened Car- bon Steels .....	758
Physical Properties of Steels and Their Relation to Service Stresses.....	673
Pig Iron; Blast Furnaces and the Making of Pig Iron.....	312
Practical Aid to the Heat Treatment of Steel.....	325
Preheating High Speed Steel Tools for Hardening; A Note on.....	306
Process for the Manufacture of Helical Springs for Heavy Duty.....	62
Discussion .....	126
Producer Gas for Heat Treating .....	51
Discussion .....	179
Progress; Metallurgical Progress or Progress in Steel Treating.....	359
Progressive Failure or Fatigue of Metals Under Repeated Stress.....	327
Properties and Microstructure of Heat Treated Nonmagnetic, Flame, Acids and Rust Resisting Steel .....	554
Proposed Changes to the Society Constitution.....	553
Pyrometer Equipment, Essentials of Modern Equipment.....	505
Pyrometers; Application to Heat Treating.....	229
Pyrometers; Concerning Them.....	73
Pyrometers From the Standpoint of the User.....	651
Pyrometers; The Application of Pyrometers to the Heat Treatment of Steel	43
<b>Q</b>	
Quenching High Speed Steel.....	441
Quenching Mediums and Their Application.....	181
Quenching Mediums; Efficiency of Various Quenching Mediums and Their Application—Discussion .....	161
<b>R</b>	
Red Hardness of High Speed Steel.....	511
Reduction; Scaling or Oxidation and Reduction of Metals in Fuel-Fired Furnaces .....	346

Refractories; Carborundum Refractories in Heat Treating Furnaces.....	601
Relation Between the Physical Properties of Steels and Their Endurance of Service Stresses .....	673
Relation of High Temperature Treatment of High Speed Steel to Secondary Hardening and Red Hardness.....	511
Relation of the Metallurgical Laboratory to Inspection.....	245, 448
Relation of the Metallurgical Laboratory to the Inspection Department.....	448
Relation of Temperature to the Quality of Case and Core in Carbonizing....	655
Relation of the Steel Salesman to the Development of Heat Treatment of Steel .....	158
Relative Economy of Oil, Gas, Coal and Electric-Heated Furnaces.....	249, 401
Relative Thermal Economy of Electric and Fuel-Fired Furnaces.....	217
Discussion .....	227
Research in Case Carbonizing; A.....	297
Role of the Metallurgical Laboratory in Relation to Inspection.....	245
Role of the Metallurgical Laboratory in Relation to the Inspection Department	448
Rust Resisting Steel; Properties and Microstructure of Heat Treated Non-magnetic, Flame, Acids and Rust Resisting Steel.....	554

## S

Sauveur, Prof. Albert, Elected to Honorary Membership.....	417
Scaling or Oxidation and Reduction of Metals in Fuel-Fired Furnaces.....	346
Screens; the Application of Furnace Door Screens.....	338
Secondary Hardening and Red Hardness; Relation of the High Temperature Treatment of High Speed Steel to.....	511
Selection of High Speed Steel for Tools.....	527
Specifications; Standardizing for Tool Steel.....	666
Springs; A Process for the Manufacture of Helical Springs for Heavy Duty..	62
Discussion .....	126
Stainless Steel, Its Treatment, Properties and Application.....	170
Discussion .....	178
Standardizing Specifications for Tool Steel.....	666
Steel Alloys; Extending the Use of.....	473
Steel Alloys; Their Rise and Secrets.....	481
Steel and the Forge Shop Man.....	49
Steel; A New Method of Case Hardening.....	270
Steel; A Practical Aid to the Treatment of.....	325
Steel; Bessemer Process for Making.....	682
Steel Castings; Annealing and Heat Treating Miscellaneous Steel Castings....	342
Steel Castings; Heat Treated Steel Castings of Chrome-Molybdenum Steel..	588
Steel; Chrome-Molybdenum Heat Treated Castings.....	588
Steel; Dendritic .....	56
Steel; Effect of Heat Treatment on the Fatigue Strength of.....	617
Steel; Effect of Phosphorus and Sulphur on.....	247
Steel; Electrical Heat Treatment of.....	198
Discussion .....	207
Steel for Machine Parts .....	67
Steel; Heating and Quenching of.....	441
Steel; High Speed—Heat Treatment of.....	727
Steel; High Speed; Making the Most of.....	436
Steel; High Speed; Metallurgy of.....	716
Steel; High Speed; Relation of High Temperature to Secondary Hardening and Red Hardness .....	511
Steel; Manufacture of Steel from the Raw Material to the Finished Product..	423
Steel; Metallurgy of High Speed Steel.....	716

Steel; Microstructure and Properties of Nonmagnetic, Flame, Acids and Rust Resisting Steel .....	554
Steel; Molybdenum Steel and Its Application.....	500
Steel; Necessary Precautions to Obtain Uniformity in the Heat Treatment of..	398
Steel Salesman; Relation of the Steel Salesman to the Development of the Heat Treatment of Steel .....	158
Steel; Selection of High Speed Steel for Tools.....	527
Steel; Stainless Steel, Its Treatment, Properties and Application.....	170
Discussion .....	178
Steel; Tests of Centrifugally Cast Steel.....	370
Steel; Thermal Treatment of Cast Steel.....	746
Steel; True Action of Cyanide in Case Hardening.....	330
Steel; Volume Changes in the Heat Treatment of.....	734
Steel Treating; Ancient and Honorable Craft of.....	91
Steel Treating; Metallurgical Progress or Progress in Steel Treating.....	359
Steel Treating; Pyrometers and Their Application to.....	229
Steel Wizards, Past and Present .....	87
Steels; A Discussion of Molybdenum Steels .....	285
Steels; Fatigue Breakdown in Automobile Steels.....	321
Steels; Fatigue Study is Important .....	614
Steels; High Carbon Alloy Steels; Carbonizing, Hardening and Tempering in 130 minutes .....	445
Steels; High Carbon Open-Hearth Steel Versus Crucible Tool Steel in the Manufacture of Miscellaneous Tools.....	238
Steels; Molybdenum Alloy Steels; Value of.....	589
Steels of Various Carbon Contents; Carburizing Temperatures Best Suited for	638
Steels; Relations Between the Physical Properties of Steels and Their Endurance of Service Stresses .....	673
Stresses; Relation Between the Physical Properties of Steels and Their Endurance of Service Stresses .....	673
Suggested Method for Determining the Comparative Efficiency of Certain Combinations of Alloys in Steel.....	188
Sulphur; Effect of Phosphorus and Sulphur on Steel.....	247

## T

Temperatures; Carburizing Temperature Best Suited for Steels of Various Carbon Contents .....	638
Tempering; Carburizing, Hardening and Tempering High Carbon Alloy Steels in 130 Minutes .....	445
Test Bar; Microstructure in a Metcalf Test Bar.....	111
Tests of Centrifugally Cast Steel.....	370
Thermal and Physical Changes Accompanying the Heating of Hardened Carbon Steels .....	758
Thermal Economy of Electric and Fuel-Fired Furnaces.....	217
Thermal Treatment of Cast Steel.....	746
Things to Be Done.....	419
Time, Temperature and Heating Media Functions in Hardening Tractor Worms	116
Discussion .....	122
Tool Steel; High Carbon Open-Hearth Steel Versus Crucible Tool Steel in the Manufacture of Miscellaneous Tools .....	238
Tool Steel; Standardizing Specifications for.....	666
Tools; A Note on Double Preheating High Speed Tools for Hardening.....	306
Discussion .....	308
Tools; High Carbon Open-Hearth Steel Versus Crucible Tool Steel in the Manufacture of Miscellaneous Tools.....	238

Tools; Selection of High Speed Steel Tools.....	527
Discussion .....	529
Tractor Worms; Time, Temperature and Heating Media Functions in Hardening of .....	116
Trade; World Conditions and the Development of Foreign Trade.....	367
Treatment of Steel; A Practical Aid to.....	325
Truck Axles; Heat Treatment of.....	209
True Action of Cyanide in Case Hardening Steel.....	330
Discussion .....	334

## U

Uniformity in the Heat Treatment of Steel; Necessary Precautions Required to Obtain .....	398
University of Michigan Has New Department.....	149

## V

Value of Molybdenum Alloy Steels.....	589
Discussion .....	596
Various Quenching Mediums and Their Application.....	181
Volume Changes in the Heat Treatment of Steel.....	734

## W

Walls; Heat Flow Through Furnace Walls.....	128
What's New in Metallurgy? .....	640
When Will Industry Resume?.....	547
Wizards; Steel Wizards, Past and Present.....	87
World Conditions and the Development of Foreign Trade.....	367

## Y

Year Book of the Society.....	Vol. 1, No. 5, Pages 1 to 91
